

JANUARY 2023

NEWSLETTER

"OPEN4U: intrOducing Practices in opEn innovation 4U" project:

"OPEN4U" project addresses the needs for continuing education in the VET sector, contributing to innovation and especially focusing on open innovation and digitalization.

The project's aim is to bridge the gap between closed and open innovation, proposing new insight into standard procedures or habits of employees contributing to development in SMEs.

Since open innovation is first and foremost associated with digitalization, it is this aspect that will predominantly contribute to innovation in VET, and is the key focus of OPEN4U.

Work Packages:

WP1: Project Management.

WP2: Formation of open innovation interactive catalogue.

WP3: Development of guides on introducing open innovation practices for mobile devices.

WP4: Delivering Public Relations tools and activities.

Co-funded by
the European Union

Target Groups:

- Junior and Senior staff at SMEs, R&D team members.
- VET institutions, VET trainers.
- Other stakeholders, such as Incubators of Entrepreneurship, Regional Development Agencies, Chambers of Commerce.
