"OPEN4U: INTRODUCING PRACTICES IN OPEN INNOVATION 4U"

COMPLETION OF THE WORK PACKAGE 2

The completion of Work Package 2, titled "Formation of an open innovation interactive catalogue," marks a significant milestone for the project. This catalogue presents open innovation practices observed in companies identified by the partners in their countries.

We are pleased to announce that it has been finalized and translated into all partner languages (CZ, FR, GR, IT, PL, TR). This project result is now accessible on the OPEN4U website:

THE 2ND FACE TO FACE MEETING

On the 13th and 14th of February 2024, OPEN4U partners gathered in Prague for their second Transnational Project Meeting, hosted by bit cz training s.r.o. The primary focus was to review the objectives, output, and timeline of Work Package 3, specifically centered on developing guides for introducing open innovation practices on mobile devices. Discussions also covered various essential aspects, including quality and evaluation, project management, financial considerations, reporting, communication channels, and indicators.

Additionally, on the second day, partners embarked on a study visit to IQS Group, a company that supplies innovative products and technologies internationally. IQS Group operates in diverse areas, from ID documents and banknotes counterfeit protection, and nanostructured optics to 3D nanoprinting and medical nanoapplications.
